### WORK EXPERIENCE/ PROJECTS

**Domino's Pizza**, *Delivery Driver*

Winter Garden FL, May '21 – Feb. '22

Prepared and delivered meals to customers in a timely manner  
Cleaned and sanitized dishes and utensils, consistently keeping adequate supplies on hand for expected customer loads.  
Strategically boxed meals and salads in tidy and aesthetically pleasing manner.

Trained, evaluated, and assisted new team members.

Answered phones in a professional and friendly manner.

**Google UX Design Certification**, *Coursera*

Completed seven courses developed by Google that includes hands-on, practice-based assessments.

Prepared for introductory-level role in UX Design.

Learned about the design process from beginning to end.

**Foodies App**, *Coursera UX Design Certification*

Mock application for a fast-food restaurant.

Empathized with users and identified pain points.

Created wireframes as part of the ideation phase of the design process.

Designed prototypes for the main user flow plus and extra screens a user would encounter.

Created hi-fidelity mockups to show what the app would look like and how it would react on an iPhone.

**MoviePlex Website**, *Coursera UX Design Certification*

Mock responsive website for a movie theater.

Empathized with users and identified pain points.

Designed the website for the main user flow of reserving a seat in a theatre while booking tickets.

Created wireframes for a desktop, tablet, and phone as part of the ideation phase of the design process.

Designed prototypes for the main user flow.

Created hi-fidelity mockups to show what the app would look like and how it would react on a desktop.

**UI Design Challenges**, *Learning Opportunities*

Followed trends seen on Behance and Dribbble websites.

Mimicked design trends and apply them throughout current or future projects.

Redesigned popular apps to learn and advance design skills.

Followed YouTube tutorials to learn new skills on Figma and Adobe XD.

**Treehouse Front End Web Development**, *Project 1*

Winter Garden FL, July '20

Utilized HTML and CSS to create an "About me" website

Created and connected 3 HTML pages all using one stylesheet

Submitted project to fulfill all requirement that "exceeded expectations".
